

Feedback Analysis Report (2019-20)

Feedback is an essential part of learning outcomes and in order to receive feedback from students a Google form was shared. Parents are being informed about student learning outcome and performance in extra-curricular activities and suggestions regarding betterment of quality education were invited and action taken in accordance with the suggestions.

The feedback form contains 15 questions related to college performance in teaching quality, learning outcome, college infrastructure, facilities and atmosphere. Total 404 students participated in feedback. The result of the feedback analysis is given below:

Strengths:

1. 83.3% respondents were “agree and strongly agree” on overall teaching- learning performance and conceptual clarity teachers provide at Government Rajindra College Bathinda.
2. 76% of respondents rated the teacher “excellent and very good” on teaching attitude in the classroom.
3. Fairness and equality are important factors that make an institution outstanding. 89.9% respondents rated the institute with “always fair and usually fair.”
4. 82.7% respondents rated high on mentoring at “significantly and very well”
5. Extra-curricular activities are a very important part of any educational institute. 84.4% Respondents are “strongly agree and agree” on this question

Weakness:

1. On campus placement and job front the institute is lacking and the main reason is that the institute is in Malwa region of the state dominated by rural population. The students of rural background are not aware of career and job opportunities though we are working on that front and we are hopeful that things will improve gradually.
2. The college has some ICT enabled classrooms and some teachers use projectors and smart boards but not every teacher. That reflects in responses as 31.2% respondents are unhappy with it. We are continuously working on that and things will improve going forward.

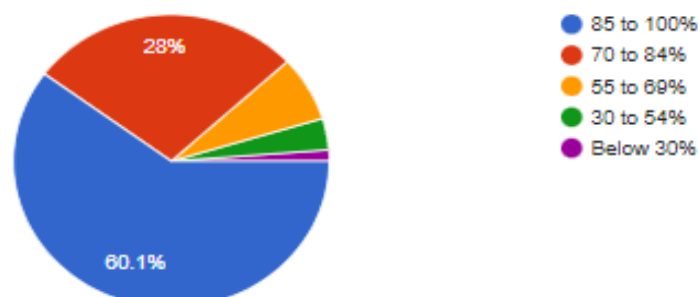

Plan for next year-

Under prevailing Covid situations institute’s main concern is to provide uninterrupted delivery of learning through ICT enabled tools. Continuous online counselling sessions to address psychological problems among the students due to Covid like, anxiety, despair and insecurity.
