

# **CAREER PROSPECTS OF LEARNING GEOGRAPHY**

**DEPARTMENT OF GEOGRAPHY  
GOVT. RAJINDRA COLLEGE, BATHINDA**

## WHY STUDY GEOGRAPHY?

1. Geography helps us understand basic physical systems that affect everyday life.
2. To learn the location of places and the physical and cultural characteristics of those places in order to function more effectively in our increasingly interdependent world.
3. To understand the geography of past times and how geography has played important roles in the evolution of people, their ideas, places and environments.
4. To understand the spatial organisation of society and see order in what often appears to be random scattering of people and places.
5. To be able to make sensible judgements about matters involving relationships between the physical environment and society.
6. To appreciate Earth as the homeland of humankind and provide insight for wise management decisions about how the planet's resources should be used.
7. To understand global interdependence and to become a better global citizen.

## **Job types for Bachelor of Arts Geography:**
