## Feedback Analysis Report (2018-19)

Feedback is an essential part of learning outcomes and in order to receive feedback from students a Google form was shared. Parents are being informed about student learning outcome and performance in extra-curricular activities and suggestions regarding betterment of quality education were invited and action taken in accordance with the suggestions.

The feedback form contains 15 questions related to college performance in teaching quality, learning outcome, college infrastructure, facilities and atmosphere. Total 261 students participated in feedback. The result of the feedback analysis is given below:

## **Strengths:**

81% respondents were "agree and strongly agree" on adequate communication of teachers with students.

More than 80% respondents agree upon support from teachers on extra curricular activity. So, that is really important in holistic development 76% of respondents rated the teacher "excellent and very good" on teaching attitude in the classroom.

Fairness and equality are important factors that make an institution outstanding. More than 83% respondents rated the institute with "always fair and usually fair."

## Weakness:

Mentoring need to push as only 65% students wery happy with mentoring

Students performance was discussed 70% still need to improve

On campus placement and job front the institute is lacking and the main reason is that the institute is in Malwa region of the state dominated by rural population. The students of rural background are not aware of career and job opportunities though we are working on that front and we are hopeful that things will improve gradually.

The college has some ICT enabled classrooms and a few teachers use projectors and smart board and that reflects in responses as 56 % respondents are unhappy with it. We are continuously working on that and things will improve going forward.

## Plan for next year-

To improve the said parameters with sensitisation of students and teachers.

IT is demand of present so institution will focus on ICT enabled teachings.
